Welcome Summer College Students!

Cornell Health provides medical care, counseling, and pharmacy services for all participants in Cornell University Summer College. Visit us when you come to campus and online at health.cornell.edu. You’ll discover that we are focused on supporting your health and promoting a healthy campus community.

New Student Health Requirements

Cornell Health oversees the New Student Health Requirements process, through which you will provide information required to comply with state and federal laws, meet public health guidelines, and support optimal health care for you during your time at Cornell. The information you provide, as well as all health care you receive at Cornell Health, is confidential. Health care records are completely separate from all other university records.

Please complete all items on the check list to the right that applies to you (under 6 credits OR 6 or more credits).

Overview

1. **Print this document.** It will guide you through all the steps to meeting Cornell’s Health Requirements. (Specific instructions are provided with each form.)

2. **Plan ahead.** This process involves completion of a number of forms.

3. **Log onto myCornellHealth** with your Cornell net ID: mycornellhealth.health.cornell.edu. This is our secure patient portal. You will access your Health Requirements forms there.

4. **Complete all forms; submit required documentation.** View your progress at “Forms” in myCornellHealth. *If we find problems, we will send an email alert directing you to read a secure message at myCornellHealth for further instructions.*

5. The status on your Summer College To Do list will be updated after a review of your materials demonstrates compliance with immunizations and TB screening.

Deadline

*May 14, 2018*
