

The Flu Feels Worse.

Be sure to get vaccinated when flu shots are available.
Encourage others to get vaccinated too.

Show you care. When you get vaccinated, you help protect the whole community.
Mark your calendar for campus flu shot clinics. See health.cornell.edu/flu for schedule.
Appointments for vaccine can also be made at Cornell Health; call 607-255-5155.
Remember your Cornell ID; shots are FREE for Cornell faculty, staff and students.
Trust that the added flu protection will be worth a moment of discomfort.

Get a flu shot!
