Oh great; it’s sleeting.
Hey Cortana... Where can I vape?

Better grab a rain slicker, sister.

Sorry to rain on your parade.

At Cornell, e-cig use (like cigarette smoking) is prohibited in all indoor facilities, at enclosed bus stops, in university-owned or controlled vehicles, and within twenty-five feet of the entrance to any university-owned or controlled building. Vaping in these locations is a campus health/safety violation. It may also put others' health at risk. If you’re addicted to vaping and need help quitting, consider the cessation resources at Cornell Health.
