Ecuador  Greenland  Guatemala  Guinea  Guyana

... then you must meet Cornell’s TB screening requirement:

Following public health and college health guidelines, Cornell requires full-time students from countries that have a “high incidence” of tuberculosis* to provide documentation of results from a recent TB screening.

- **TESTS:** Only a Quantiferon-TB Gold or T-SPOT blood test will be accepted. Skin tests do not meet this requirement. If your TB blood test result is positive, you also must submit a chest x-ray report (no films).

- **DATES:** Summer or fall 2022 entrants: your test must be dated September 1, 2021 or later. Spring 2023 entrants: your test must be dated February 1, 2022 or later.

- **DOCUMENTATION:** Enter information using the “TB Screening” form in your Medical Clearances list in myCornellHealth. Visit health.cornell.edu/requirements for details.

If you are not able to obtain required TB screening or documentation before coming to Cornell, you must arrange for TB screening as soon as you arrive on campus. See health.cornell.edu/requirements for more information.

*High incidence = >20 cases per 100,000 individuals. Source: World Health Organization’s global tuberculosis reports.
