

are not sure if you need emergency contraception), please speak with a Cornell Health nurse by phone (607-255-5155, available 24/7) or in person.

Just in case

State and international laws vary regarding the availability of EC (both prescription and non-prescription). If you will be leaving campus for a considerable period of time (e.g., summer or winter break, going abroad for a semester), plan ahead. You may want to consider purchasing EC pills to have on hand in case of future contraceptive failure or other emergency. Talk to your health care provider about this option during a Well Woman visit or other medical appointment.
